HOW CAN SAIW POWER YOUR CAREER?

Do you have Matric maths & science?

- YES → **Do you enjoy seeing the practical application of science.**
  - YES → **Consider a career in NDT and learn to test materials or products for imperfections without destroying them using processes based on applied and proven principles.**
  - NO → **Would you like a career as a Supervisor or Manager?**
    - YES → **Consider a career in Welding Co-ordination by becoming a welding supervisor/foreman where you'll be leading welding teams and manage the day to day operations of a fabrication shop.**
    - NO → **Are you interested in metals fabrication?**
      - YES → **Consider a career in Welding Inspection. You could also work in Quality Assurance where you'll compile the relevant records on how a product was manufactured.**
      - NO → **Consider a career in vessel and piping inspection (CP or IPE).**
- NO → **But you have good hand-eye coordination and like working with your hands and creating things?**
  - YES → **Become an International Welder.**

    Our series of Practical Welding courses will give you the skills to expertly join various metals together. We offer the IIW International Welder qualification programme recognised in more than 58 countries around the world.
  - NO → **Undertake a literacy test and pursue a career in NDT or QC Course – Inspection.**

    Don't forget! You can still pursue a career in NDT by writing a literacy test and completing less technical NDT programmes of MT, PT and VT or if you'd like to become a Level 1 and 2 welding inspection (SAIW Level 1 & 2), complete our Quality Control course first.
